Governing Policies

A variety of policies govern the use of PASSCAL and EarthScope Flexible Array equipment, and the support provided by the PASSCAL Instrument Center. These policies are vetted by the PASSCAL Standing Committee and the USArray Advisory Committee (see http://www.iris.edu/hq/about_iris/governance for more information about IRIS governance and committee membership and charge). Links to PASSCAL policies are listed below:

- Data Delivery Policy
- Field Staffing Policy
- Instrument Use Agreement
- Instrument Use Policy
- Sensor Repair Policy
- Shipping for Experiments
