IRIS/PASSCAL Instrument Center User Workshop, AGU San Francisco - 2010

IRIS/PASSCAL Instrument Center would like to invite you to register for our second annual PASSCAL Users Workshop to be held on December 12th 2010 (the day before the beginning of the AGU Fall meeting). This year’s workshop will give an overview of the PASSCAL program, the services we provide and how to access them. This workshop should be useful to anyone who has an upcoming PASSCAL supported experiment, or is planning to propose an experiment, but will be particularly useful to new investigators.

The morning session (8:00-12:00) will be formal presentations covering such topics as:

- Field procedures
- Planning a PASSCAL experiment: Budgeting time, money, and personnel
- Scheduling
- Borrowing PASSCAL equipment: Policies, obligations, and procedures.
- Choosing the right equipment: An introduction to the PIC inventory.
- Shipping
- Data Policy, Submittal, and Tools

The afternoon session (13:00-17:00) will provide informal hands-on demonstrations and practice with the hardware, as well as the opportunity to discuss your experiment with PASSCAL staff.

Detail information:

Where: San Francisco, Pre AGU Fall meeting 2010 at Palomar Hotel

When: December 12th 2010

Deadline to Register: October 20th, 2010

Funding to attend: Not available

Application to Register: Please submit your application to participate on the workshop by clicking the Register button below. We will confirm via e-mail your participation by October 20th.
In order to provide the best possible support during the workshop, the number of participants will be limited to 20.

A continental breakfast and snacks will be provided.

We look forward to seeing you in San Francisco.
